UserService

Responsiblities	Collaborators
-Create new user	-UserRepository
-Deactivate user	-UserCredentials
-Get user profile	

MessageService

Responsibilities	Collaborators
-Send new message	-MessageRepository
-Read messages	

ChessMatchService

Responsibilities	Collaborators
-Create match	-ChessMatchRepository
-Get match	
-Update match	

UserCredentials

Responsiblities	Collaborators
-Stores user credentials	

UserRepository

Responsibilities	Collaborators
-CRUD operations on User entities	

MessageRepository

Responsibilities	Collaborators
-CRUD operations on Message entities	

ChessMatchRepoitory

Responsibilities	Collaborators
-Crud operations on Match entities	

User

Responsibilities	Collaborators
-DAO for User table	

Message

Responsibilities	Collaborators
-DAO for Message table	

ChessMatch

Responsibilities	Collaborators
-DAO for Match table	

ChessPiece {Abstract}

Responsibilities	Collaborators
-Template for each game piece	-King
-Declare methods for Pieces to define	-Queen
	-Knight
	-Rook
	-Bishop
	-Pawn

King

Responsibility	Collaborators
- Implement abstract Piece methods for King	ChessPIece

Queen

Responsibility	Collaborators
- Implement abstract Piece methods for Queen	ChessPIece

Knight

Responsibility	Collaborators
- Implement abstract Piece methods for Knight	ChessPIece

Rook

Responsibility	Collaborators
- Implement abstract Piece methods for Rook	ChessPIece

Bishop

Responsibility	Collaborators
- Implement abstract Piece methods for Bishop	ChessPIece

Pawn

Responsibility	Collaborators
- Implement abstract Piece methods for Pawn	ChessPIece

ChessBoard

Responsibilities	Collaborators
-References to all pieces and their relative positions on board	-ChessPIece
